RE: "Method for Accessing Electrical  
Components With Gloved Hands"  
Our File: UPI 2-001

Dear Nestor:

Enclosed is a revised version of the above-identified application for United States patent. Note that I have added a second series of claims such that one set now covers one specific glove classification. Also, the claims now describe "tightness" and utilization of a non-conductive adhesive.

In the event that the application is in appropriate form for filing, also enclosed is a Declaration for signature by you and your son. Should you wish to assign the application to a corporate entity, please so advise and we will send assignment documents for additional signature and notarization.

Very truly yours,

MUELLER AND SMITH, L.P.A.
